Declaration of Conformity

All products produced by The Toro Company, Irrigation Division, are tested to meet very stringent Toro standards, which equal or exceed most irrigation industry standards and, where applicable, are certified by third party test laboratories to the appropriate industrial standards for the products. The products you are interested in may or may not have been certified by a third-party test laboratory. For products that are certified by a third-party test laboratory, you will find the certification party's symbol on the products. The certification agencies we also use are (but not limited to) American Society of Sanitary Engineering (ASSE), Canadian Standards Association International (CSA), Underwriters Laboratory (UL), International Association of Plumbing and Mechanical Officials (IAPMO – you will find the mark as UPC), Conformity European (CE) and Technischer Überwachungs-Verein (TÜV).

For additional assurances, we are ISO 9001:2000 Registered and comply with all ISO 9000 Quality Management System standards for the design and manufacture of irrigation controllers, sprinklers, and valves. We are registered with Lloyd's Registrar Quality Assurance Limited, Approval Number: 11172

The products listed in the Toro Residential/Commercial Irrigation Catalog comply with the above statements. These products include, but are not limited to:
